# Support to industrial companies in identifying suppliers in Sweden

## A set structure to identify potential suppliers in Sweden

- Broaden the search for suppliers in Sweden by using an extended network
- Search conducted by Business Sweden or regional partner and the client's interest in new suppliers therefore do not need to be communicated externally
- Efficient process and with a broad network throughout Sweden
- Conducted as part of Sweden's investment promotion assignment

## Examples of deliveries

**Initial screening: Map and list of potential suppliers within required distance and sector in Sweden**

**Detailed screening: List of potential suppliers in Sweden that have showed specific interest and can meet requirements**

## A set structure to enable efficiency in the search process
